

# A COMMUNITY RESPONDS: YES, WE CAN.

## And yes, yes, yes, you sure did.

COVID-19 rocked our city and our world, overnight. When it first hit, none of us were quite sure what to expect. But we knew we all had to pitch in to try to contain this most unwelcome visitor to our town. And, as you always do, you came through with flying colors. As our teams helped care for the sick, you helped keep us all safer.

You stayed home during the lockdown.

You now wash your hands to two rounds of Happy Birthday.

You've made mask-wearing a routine, even a fashion statement.

And added social distancing to your vocabulary and your daily life.

You've adopted elbow bumps and virtual hugs.

Donated meals, gifts, protective gear and services.

You've made generous contributions of hard-earned cash.

Adjusted to restricted visitor policies.

And cheered our teams on with parades and signs.

For all of this and more, we have some virtual hugs and a huge thank-you to send your way.

**You are our heroes.**
